## Professional Trainings

Our offer of the quality safety products would be incomplete without the required training and services that we ensure are provided as part of the deal.

Max Safety has also been involved in the conduct of safety training for the National Institute of Occupational Safety & Health (NIOSH) namely in the area of working safely at height.

We conduct various safety trainings for the general industry primarily related to safety whilst working at height, safety whilst working in confined spaces and the management and usage of the various personal protective equipments.

- Working at Height Safety Courses
- Confined Space Entry & Rescue Courses
- Selection, use and Maintenance of General Personal Protective Equipment Course

The information documented in this catalogue contains general products description and characteristics in which, may change as a result of further development of the products. An obligation to provide the respective characteristics shall only exist if expressly agreed in the terms of contract.

All product designations may be trademarks or product names of each respective supplier companies whose use by third parties for their own purposes could violate the rights of the owner.
